

MOKSOOD HOSSEN JAHEd

OVERVIEW

Self-taught back-end developer building web applications since 2023. Deployed more than **15** functional web applications on **GitHub**. I work with **Python** (Django, DRF, FastAPI), **JavaScript** and **MySQL**, deployed with **Docker**, **Nginx** and **Gunicorn**. Currently completing **Cisco Networking Academy** and **Let's Defend** security courses, with **Mastercard** and **Skyscanner** job simulations via **Forage**.

WORK EXPERIENCE

COMPUTER LAB ASSISTANT

Sylhet Cantonment Public School and College (2020–2022)

Ran the school computer lab for two years: maintained PCs and lab networks, handled day-to-day troubleshooting, and supported teachers and classmates during ICT lessons

AMBASSADOR

National STEAM OLYMPIAD, BANGLADESH (2023-2024)

Selected to promote STEAM education and mentor school students across the national program.

PROJECTS (From GitHub)

E-commerce Web Application

Full-featured platform with **multi-level user roles** dashboards, real-time **order tracking**, and product management **APIs**.

Educational Web Platform

Built for **teachers** and **students**; includes **quiz/exam** modules, performance **reports**, and multi-level access.

Car Wash Management System

Developed a system with **role-based access control (RBAC)**, integrating **billing**, **appointments**, and **service tracking**.

POS & Inventory Management System

Local-server-based POS system for daily sales **invoicing**, customer **records**, **stock management**, and revenue/profit **tracking**.

Income Expense Tracking Application

Built a **web-based** tool to consolidate **income** and **expense** records for **rental operations**

E-Medical System

appointments/**patient-doctor-hospital workflow**

Study Portal

higher-study & **scholarship** content for students

Physics Learning Game

A game where students can learn **Thermodynamics**, **Electromagnetism**, **Aerodynamics**, **Projectile motion**, **Dynamic Lab**, **Quantum**, **Sandbox**

JOB SIMULATIONS

Cybersecurity Job Simulation

Mastercard, **Forage**

FrontEnd Engineering Job Simulation

Skyscanner, **Forage**

CERTIFICATIONS

- HTML 5, CSS 3, Bootstrap 4 for Web Development
- Modern Java Script (ES-6)
- iOS Development for Beginners: Master Swift & App Building
- Introduction to MySQL
- Pathway to Software Engineering
- GATE Set Go – Computer Science & Engineering /Data Analytics
- Cisco Networking Academy – Networking (In progress)
- Let's Defend – Detecting Web Attacks(In progress)

EDUCATION & TRAINING

International English Language Testing System (IELTS)

Venue: British Council, Sylhet

Band : 7.0 | Nov 2025

Higher Secondary Certificate (HSC)

Murari Chand College, Sylhet

GPA: 5.00 | 2025

Secondary School Certificate (SSC)

Sylhet Cantonment Public School

GPA: 5.00 | 2023

ACTIVITIES & HONORS

MEMBER (2021–2023)

SCPSC IT Club

AMBASSADOR (2023–2024)

National Steam Olympiad, Bangladesh

TOP SKILLS

- Python (Django, Django REST, FastAPI)
- JavaScript (ES6+), HTML, CSS
- PostgreSQL, MySQL, SQLite
- REST API Design & Integration
- Docker, Nginx, Gunicorn Deployment
- Git, GitHub, CI/CD Basics
- Linux System Administration
- Communication & Team Collaboration
- Detecting Web Attacks Specialist
- Networking Basics
- Cybersecurity Basics
